

New Church Directory Updates

By now a majority of you should have received your new church directory. If you have not received, please reach out to Pat Perry. Reminder these will be distributed to those who turned in personal information pages. We tried to include as many as possible, primarily relying on the submitted forms that were requested over 5+ months of advertising for requests. As we have over 100 inactive members, it was physically impossible to reach out to everyone; however, if someone desires to be included, please reach out directly to Pat.

The benefit of the three-ring format is, as Hopkins adds new members, these will be added and distributed in real time as our congregation grows. These will typically be one sided with a scripture or inspirational message on the back so you can easily insert alphabetically within your directory.

If you desire any updates to any information you provided, please let Pat know by October 1st, 2023. These updates will be made and distributed later so you can ensure that everyone has the most updated information with new pages being printed and distributed. Going forward, any updates needed (i.e., change of phone number / new address / etc.), can be communicated via a bulletin announcement (if you desire) and these can be individually written in vs printed pages to be cost effective stewards of resources.

It is my sincerest desire that everyone is pleased with the new directory. This was a labor of love, and all attempts were made to accurately capture all information. Any tweaks needed just let me know by October 1st and updated information sheets will be distributed. Everyone please review your personal page closely and advise if you have any desired additions.

Thanks,
Pat
